Local Events

B. M. YEAGER says the prospect a railroad is very flattering and he thinks we are right in it.

The public is invited to attend exhibit of Mrs. J. H. Dills' art at Academy next Saturday.

The Wesley Chapel, at Glade, was dedicated last Sunday by W. Martin and Wheeler.

The law protects wild turkeys, pheasants and partridges for two years. This will at least prevent their sale in the stores.

The railroad engineers moved camp to the mouth of Clover creek last Wednesday. From there they expect to pitch their tents at Sharp's.

For social services at Sunset the 11th Sabbath of September at 11 o'clock; Huntersville at night; meeting at Marlinton the first Sabbath at 11 A. M.; Hamlin Chapel at 3 P. M.

It would be better for this town the railroad came to this point and went up Knapps Creek. It would be better for the County at large if it followed the meanderings of the Greenbrier.

The recent talk of a railroad brings up a talk of long ago when road was being first spoken of up here.

See how they can build a railroad up Elk, when the farmers can hardly get rails to build their fences.

Tuesday morning the ground was covered with frost. Ice a quarter of an inch thick was formed on water pans. The vegetation was frozen stiff, yet for some reason it was not blasted. Most are of the opinion that this was due to the extreme dryness of the air.

The writ of prohibition in the Eastman murder case from Tucker County was refused by the Supreme Court at its recent session. The writ of habeas corpus also failed. The case is remanded to the Circuit Court of Tucker for trial under the indictment for murder.

MARION COUNTY is to have a County-seat war. The town of Manington proposes to build the court-house and jail free. Fairmont is the old County seat, and has a contract let for a County court-house to cost \$300,000. There has been a good deal of work done on the foundation.

In our last issue we by mistake inserted in H. A. Yeager's letter all that part designating committee men, color of caps to be worn, and the arrangement with Mrs. Cunningham for their purchase; which was the work of the executive committee. He was also made to say that three bands would be in attendance when his letter does not mention bands at all.

Forty squirrels were killed in one cornfield in the Levels in one day recently. It has ceased to be a laughing matter. One man reports that from a five acre field he does not believe there will be gathered a hundred undamaged ears. In this town is a small hickory tree which has some nuts on it, and two squirrels were killed there Monday morning, right in the heart of the town, so to speak.

To judge from the contents of the Randolph County papers, the County seat controversy is a hot, dangerous fight. The proposition made by the town of Elkins has been termed bribery and corruption by Beverly adherents. Some Beverly men have called the number of new settlers "squatters" in a way that makes it a term of reproach. We, in this County, know of the animosities aroused by this kind of election, which in this County equalled in some respects the feelings engendered by the Civil War. To the honor of this County, be it said, that the Court-house question has not entered into the election of County officers, except to prove disastrous to those who attempted to use it.

A DISTRESSING drought has prevailed in Monroe and contiguous sections of Greenbrier for the past six weeks. This will make seeding quite late and hasten the cutting of corn. Much of the wheat, now selling for 80 cents at Roncoverte, weighs 64 pounds to the measured bushel. Some of the oats weigh several pounds more than the regulation weight. Railroad ties are selling for thirty cents apiece; sixteen or seventeen make a two horse load. Parties are hauling lumber and staves from the head of Little Creek to White Sulphur on terms that about pay for their "vittles and clothes," this is however much better than doing nothing. The traffic in staves seems to be something phenomenal at the present time. A contractor at Union was instructed to procure some first class clear pine for a building he was fitting up. Upon going to Roncoverte he found the kind he wanted, but learned it was at fifty four dollars a thousand feet. He procured, as a makeshift, lumber rated at twenty-seven dollars per thousand. This lumber grew in Pocahontas. How is that for high?

PETER OLNER has been appointed postmaster at Green Bank.

ALL railroads lately have an increased business both in freight and passengers.

CORRETT will give a boxing exhibition at the Lewis county fair at Weston.

HIGHLAND County has still great hopes of an electric road laid on the road bed of the Staunton and Parkersburg turnpike.

THE mayor and town marshall of Cameron and a policeman were arrested for trespass on the complaint of a man who had been fined for disobeying a city ordinance.

THE Allegheny Collegiate Institute, at Alderson, has had a very auspicious opening. At the beginning this year the school had twenty-five more pupils than last year.

SPECIAL NOTICE—All young ladies who expect to ride in the procession will prepare a red band with thirteen white stars for caps, as caps could not be secured with stars. Caps can be had at Mr. Cunningham's by Tuesday, the 28th.

THE frost Wednesday morning completed what the frost of Tuesday began. We have frosts every fall, and in fact every month in the year at this altitude, so while corn has been caught uncut still we should congratulate ourselves that we have had a reasonably long season.

CONGRESSMAN CLAYTON, of Alabama says that prosperity has not struck the south. Wheat is good for the west, but cotton at a cent less per pound than this time last year. All the planter has to do is to buy at an increased price, the prospects are not very brilliant for the southern people.

NOW WHEN squirrels are so plentiful that many persons are killing them and not using them a receipt for a squirrel ragout may be in order. Boil the squirrel until done. Let it cool. Strip the meat from the bones and stew with onions and either cooked or uncooked potatoes. Season to taste. Break dry bread in it and serve hot.

THE amount of interest that is being taken in the reunion is wonderful. None would have believed three months ago that any social affair could have so stirred the people of the county. Visitors to our county will see it when the eternal hills have put on the varied dress of fall, the coat of many colors. The people within reaching distance of Marlinton have made arrangements to entertain the visitors the night before and the night after. In the Levels, particularly, the committee has consulted with the various citizens, and they have systematically provided for the visitors from Greenbrier and those who come from that direction. The denizens of Marlinton will all contribute towards the decoration of their houses and business places.

THERE is an interesting railroad survey on record in the clerk's office of the county court which lays off the route from Marlinton to the mouth of Clover Creek. It is the survey of the old Black Diamond road that was about to be built twenty years ago. The distance given by this survey from Huntersville to Clover Creek is 23 miles, to Marlinton seven and from thence 23 miles. Apparently it is an easy road to be built as long as they keep to the route on which the present engineers are working, but when they leave the Greenbrier and go up Clover creek to cross the divide to the waters of Elk the trouble begins. Cuts, trestles, tunnels, and fills follow each other in bewildering succession on an average grade of about two hundred feet to the mile. There are calculations for hundred thousands of cubic yards of excavations of solid rock and loose earth. Thousands of cubic yards of masonry called for. We can well understand how this road struck terror to the souls of its promoters.

THE Musicals of next week bids fair to be something worth seeing by all. The program will consist of entirely new features and the entertainment will not contain a feature that has been given here before. A one act tragedy, entitled "The Battle of Droop Mountain," will be put upon the boards for the first time, with that able histrionic genius, Mr. Walker Yeager, playing the leading part. The scene is laid in a mountain home, five miles (a good running distance in those days) from the battle ground on the day of the battle. A Confederate soldier, a member of Captain McNeel's company, comes in covered with gore, and very much out of breath by his long run, and tells his wife all about the battle and how several of our prominent county men acted. The act ends by the arrival of a squad of Federal soldiers who capture the hero of Droop Mountain. Some of the tabular will be beautiful. "The leas will be beautiful. "The breadth of my love" by little George McClintic, and "Sunset River" by "Brack Uncle George Lee," will be particularly taking. Mr. W. A. Bratton sings the "Raccoon and the Bee," so popular this season. The vocal and instrumental music by the ladies, the guitar, banjo and harmonica renditions, and some concert pieces by the Beverly band should make it the best thing ever given in the county. Admittance 50c; children 15c.

Serious Accident near Dunsmore

Harry Moore was shot in the hip by the accidental discharge of a shot-gun in the hands of Ed. Jackson, Monday morning. The two friends were out hunting squirrels, as they had been before several times this season. In passing a corn field a squirrel ran along the zig-zag top of the rail fence. Mr. Moore was in front and ran after it with Mr. Jackson following. It was at this juncture the gun was discharged through the owner stumbling. The entire charge entered the hip at a distance of about eight feet, causing a serious wound. The gun was a 12-bore breach loader.

Mr. Moore is a prominent farmer and is the owner of the beautiful place on the hill north of Dunsmore known as the home place of his father, Isaac Moore.

With proper care and nursing the wound is not necessarily dangerous.

Very dry and frosty. H. M. Moore and E. H. Jackson were out squirrel hunting Monday morning about 10 A. M. E. H. Jackson jumped out the fence and his shot gun went off accidentally. Harry Moore was about eighteen feet in advance. Between 240 and 250 squirrel shot lodged in his hip and thigh. They were on Benick Kerr's farm about 1 1/2 miles from his home. Drs. Noonan and Austin rendered medical attention. He was carried home and is getting along as well as could be expected. The shot could not be extracted as they were too deep in the flesh.

Between five and six hundred people attended the dedicatory services of the Glade Hill church. This is the finest finished church in this or adjoining counties. Revs. Martin and Wheelock preached very able sermons. C. S. S.

The Song of the Train.

"With a michnai—ghignai—schtingall! Yah! Yah! Yah! Ein—zwei—drei—mutter Yah! Yah!"

She climb upon der shteeple Und she frighten all der people Singin' michnai—ghignai—schtingall! Yah! Yah!"

The Book Buyer is not sure that even Kipling has caught the song of the train any better than an old darkey who lived up in Nova Scotia some years ago, and who used to say that the train sang:

"I'll bet yo' sip de dehal yo' to yo' git to Baltimo'."

TIRES THAT LEAK.

The Morgan & Wright single-tube quick-repair tire must be regarded as a distinct improvement in bicycle tire construction. It has the following advantages:

Walls punctured in it can be repaired with plugs, or semi-liquid injections, as well as in any other single-tube tire, it can be promptly repaired by using the quick-repair strip inside the tire. See cut No. 1.

By injecting M. & W. quick-repair cement through the puncture, and then pressing down on the tire with the thumb, as in cut No. 2, the repair

is made in a few minutes. The Morgan & Wright single-tube quick-repair tire is guaranteed not to puncture. This is an account of the way in which it is made. Nearly every rider has heard of tires that "leak like a sieve."

Many tires rot, because water gets into the fabric between the two layers of rubber. The Morgan & Wright fabric is proof against moisture.

Everybody knows how comfortable Morgan & Wright tires are, and yet how seldom they puncture. This is due to the fabric.

Ask any bicycle dealer whether other tires last as long as Morgan & Wright tires. Ask, also, what the Morgan & Wright guarantee means. Morgan & Wright tires are repaired free of charge, at the factory in Chicago or at any of the Morgan & Wright free repair shops, located in the principal cities.

N. B.—When you have a puncture, get right off. Riding a tire flat, when it has a tack or nail in it, may damage it considerably.

KEEP YOUR BOWELS STRONG ALL SUMMER!

Advertisement for Dr. Scott's Emulsion, featuring a large illustration of a man carrying a large fish on his back. Text includes: 'SCOTT'S EMULSION OF Cod-liver Oil with Hypophosphites is just the remedy for growing children. It makes hard flesh; sound flesh; not soft, flabby fat. It makes strong bones, healthy nerves. It changes poor children to children rich in prosperity.' Below the illustration is the name 'L. D. Sharp' and 'No. 70—Five for Fifty Cents'.

Growing Children

One-third of all the children die before they are five years old. Most of them die of some wasting disease. They grow very slowly; keep thin in flesh; are fretful; food does not do them much good. You can't say they have any disease, yet they never prosper. A slight cold, or some stomach and bowel trouble takes them away easily.

SCOTT'S EMULSION OF Cod-liver Oil with Hypophosphites is just the remedy for growing children. It makes hard flesh; sound flesh; not soft, flabby fat. It makes strong bones, healthy nerves. It changes poor children to children rich in prosperity. Book about it free for the asking. No substitute for Scott's Emulsion will do for the children what we know Scott's Emulsion will do. Get the genuine. For sale by all druggists at 50c and \$1.00. SCOTT & BOWNE, New York.
